RE: Old West Renovations Ltd.

We contracted Rick Whatley of Old West Renovations Ltd. for the purchase and installation of our front and back door. We contacted Rick for an onsite consultation and were impressed that an appointment was set and met within days of our initial contact. Rick provided his expertise in advising on what type and style of doors would go with our newly renovated home. As per our estimate we had our door ordered and installed on schedule within 6 weeks of ordering. After dealing with contractors who didn't meet deadlines it was refreshing to have a company that provide their services on schedule. The workmanship on installing the doors was exceptional and we have no concerns. Best of all the installing crew maintained a clean and safe work site. We have a number of other windows in our house that need to be replaced and will certain contract Old West Renovations Ltd. in the future. We would highly recommend Old West Renovations Ltd. as a supplier. If any of your potential client would like to talk directly with us they can call the above phone number and we will certainly provide any information they may require.

Great job Rick we look forward to working with you in the future.

Regards,

Dale and Wynne Bjorgan
